Skills

HTML | CSS | JavaScript | React.js
Bootstrap | Tailwind CSS | Redux
Context API | Cypress | Express.js | Node.js
PostgreSQL | Git | GitHub | VS Code | Vercel
Heroku

Projects

Reciperts, *Full Stack Developer* [↗](#)

- Used Express.js and PostgreSQL to build a RESTful API for user registration and recipe data storage
- Built frontend components with React and Redux to create, edit, and delete recipes on the API using Axios
- Designed and Styled responsive components to enhance the overall website functionality by using Tailwind CSS

Jarvis mini, *Frontend Developer* [↗](#)

- Created a frontend AI assistant app that responds to user inputted prompts
- Built interface with React, Redux and the OpenAI API
- Used Tailwind CSS to style responsive components

Plant Water Tracker, *Frontend Developer* [↗](#)

- Created frontend interface with React for users to create a plant watering schedule tailored for individual plants
- Developed a sign-up page and components for users to perform CRUD operations on the API for their plants
- Used CSS to customize design of landing page and all application components

Divici's Meadery, *Frontend Developer* [↗](#)

- Built a frontend interface with React to store recipes
- Developed cohesive design of components using CSS
- Created a custom banner, designed a logo and all assets using Adobe Photoshop

Education

Full Stack Web Development, *BloomTech (FKA Lambda School)* [↗](#)

10/2021 – 05/2022 | Remote

- Intensive Full Stack Web Developer Track with a focus on HTML, CSS, JavaScript, React, Node, Express, and SQL
- Completed three team projects that mimicked real product development lifecycle

Professional Experience

Full Stack Developer (Volunteer), *Coder Heroes*

04/2022 – present | Remote

- Contributed with a team of frontend developers and stakeholders to develop UX design wireframes for virtual coding school interface
- Built React components, state management, CRUD operations and implemented progress bar and registration flow using Ant Design
- Conducted frequent code reviews and approved Pull Requests, communicated design decisions, and incorporated daily team meetings ensuring tasks were completed

Manager, *Ecommerce, Midlur.com*

09/2019 – 08/2021 | Washington, DC

- Generated \$20,000 in revenue by researching markets and identifying new revenue-generating opportunities
- Established and maintained 10+ long-lasting relationships with suppliers and fulfillment centers
- Created and updated ad campaigns as well as monitored key performance indicators daily

Interests

Digital Art • Ecommerce • Woodworking

Game Development • App Design
